

International Journal of
CONTROL

Editor: A. G. J. MACFARLANE, F.R.S.

Consultant Editor: A. T. FULLER

Editorial Board:

Sweden - - - -	Professor K. J. ÅSTRÖM
Netherlands - -	Professor P. EYKHOFF
U.S.A. - - - -	Professor YU-CHI HO
U.S.A. - - - -	Professor T. KAILATH
Japan - - - -	Professor H. KIMURA
U.S.A. - - - -	Professor A. J. LAUB
U.S.A. - - - -	Professor C. T. LEONDES
U.K. - - - -	Professor D. Q. MAYNE
U.K. - - - -	Professor H. H. ROSENBROCK, F.R.S.
West Germany - -	Professor Dr.-Ing. M. THOMA
U.K. - - - -	Professor J. H. WESTCOTT, F.R.S.

Volume 45

January 1987 to June 1987

Taylor & Francis
London • New York • Philadelphia

Subscription Information

Published monthly

Annual subscription 1987 £ 400 DM 1600 US \$730

ISSN 0020-7179

Dollar rates apply to USA, Canada and Mexico. Deutschmark rates to FR Germany. Sterling rates apply to the UK and all other areas.

All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada and Mexico, India and Australasia. Subscriptions are entered on an annual basis, i.e. from January to December. Payment may be made by sterling cheque, dollar cheque, international money order or National Giro, or by credit card (AMEX, VISA, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributors:

Australia

R. Hill & Son Ltd, 117 Wellington Street, Windsor, Victoria 3181.

India

Universal Subscription Agency Pvt. Ltd, 101-102 Community Centre, Malviya Nagar Extn Post Bag No. 8 Saket, New Delhi 110017.

Japan

Kinokuniya Company Ltd, Journal Department, PO Box 55 Chitose, Tokyo 156.

New Zealand

R. Hill & Son Ltd, Private Bag, Newmarket, Auckland 1.

USA, Canada and Mexico

Taylor & Francis Inc., 242 Cherry Street, Philadelphia, Pennsylvania 19106-1906.

UK and all other territories

Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR.

Air freight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003. Second class postage paid at Jamaica, New York 11431. US Postmaster: Send address changes to *International Journal of Control*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003.

Published by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK. Printed by Taylor & Francis (Printers) Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR, UK.

CONTENTS OF VOLUME 45

NUMBER 1—JANUARY

	PAGE
Classical design, with application to a 3×3 turbofan engine model. J. VAN DE VEGTE.....	1
Simple example of digital control systems with chaotic rounding errors. T. USHIO and C. S. HSU.....	17
Multiloop self-tuning control: decoupling and pole assignment regulators for n -input n -output stochastic systems. M. A. HERSH.....	33
State and free boundary estimations for stochastic two-phase Stefan systems. M. ISHIKAWA, Y. SUNAHARA and S. I. AIHARA.....	47
Coefficient assignment by dynamic compensation for single-input retarded delay systems. J. CHIASSON and E. B. LEE.....	65
A regulating and tracking PI(D) controller. E. EITELBERG.....	91
Stability of interconnected systems with combined pulse frequency and pulse width modulation. S. OI and M. KUWAHARA.....	97
Multi-variable frequency domain design method for disturbance minimization. S. L. SHAH and D. G. FISHER.....	107
Simpler polynomial solutions in stochastic feedback control. A. P. ROBERTS.....	117
Persistent excitation in adaptive systems. K. S. NARENDRA and A. M. ANNASWAMY.....	127
Optimal pole assignment for a discrete linear regulator with constant disturbances. S.-H. LEE and T.-T. LEE.....	161
Analysis of time-varying delay systems via general orthogonal polynomials. T.-T. LEE and Y.-F. CHANG.....	169
Alternative robust servo-control system and its digital control. K. FURUTA.....	183
Recursive computational algorithm for the generalized block-pulse operational matrix. C.-H. WANG and R. S. MARLEAU.....	195
Stability of interval matrices. LIAO XIAO XIN.....	203
Necessary and sufficient conditions for stability of a class of interval matrices. LIAO XIAO XIN.....	211
Factorization of all-pass matrix functions. M. GREEN and B. D. O. ANDERSON.....	215
Realization of singular systems via Markov parameters and moments. M. A. CHRISTODOULOU.....	237
Finitely generated ideals in certain algebras of transfer functions for infinite-dimensional systems. H. LOGEMANN.....	247
Detection of dominant poles of systems with time delay by using Padé approximation. S. TAKAHASHI, K. YAMANAKA and M. YAMADA.....	251
Functional reproducibility of general multivariable analytic non-linear systems. C.-W. LI and Y.-K. FENG.....	255
Application of Legendre series to the optimal control of integrodifferential equations. J.-H. CHOU.....	269
Analysis and identification of non-linear systems via shifted Jacobi series. I.-R. HORNG and J.-H. CHOU.....	279
Recursive eigenstructure assignment in linear systems. M. M. HASSAN and M. AMIN.....	291
Model selection and validation methods for non-linear systems. I. J. LEONTARITIS and S. A. BILLINGS.....	311
Hammerstein system identification by non-parametric regression estimation. W. GREBLICKI and M. PAWLAK.....	343
New approach to observer design for two-dimensional systems. E. YAZ.....	355
Reduced-order control of systems disturbed by randomly correlated noise sequences. E. YAZ.....	359
Correspondence	
Comments on 'Canonical transformation for a class of time-varying multivariable systems'. C.-C. TSUI.....	363
Comments on 'Canonical transformation for a class of time-varying multivariable systems'. A. ILCHMANN.....	365
Comments on 'A necessary and sufficient condition for the positive-definiteness of interval symmetric matrices'. S. BIALAS and J. GARLOFF.....	367
Comments on 'On the loop transfer recovery'. P. SØGAARD-ANDERSEN.....	369

NUMBER 2—FEBRUARY

	PAGE
Identification of parameter bounds for ARMAX models from records with bounded noise. J. P. NORTON.....	375
Robust stability of linear quadratic state feedback regulator under system uncertainty. T. KATAYAMA and S. SASAKI.....	391
Design of an optimal servomechanism with preview action and its dual problem. T. KATAYAMA and T. HIRONO.....	407
Model identification and reduction in the frequency domain. P. A. KARPE, K. P. MADHAVAN and M. CHIDAMBARAM.....	421
Model reference control-system design for norm-uncertain plants. H. MICHALSKA.....	439
Recursive identification of bilinear systems. F. FNAIECH and L. LJUNG.....	453
L_2 -stability of non-linear time-varying systems: combined conditions on the derivatives. S. RAMARAJAN.....	471
Linear equivalence of time-varying systems. C. A. SCHWARTZ.....	475
Convergence property of interval matrices and interval polynomials. T. MORI and H. KOKAME.....	481
Quadratic-criterion self-tuning control with error transfer-function pole/zero placement. L. LIU and N. K. SINHA.....	485
Slow-drift instability in model reference adaptive systems—an averaging analysis. L.-C. FU and S. SASTRY.....	503
Transformations of matrix pencils and implications in linear systems theory. A. C. PUGH, G. E. HAYTON and P. FRETWELL.....	529
High-gain feedback stabilization of linear systems. V. DRAGAN and A. HALANAY.....	549
Application of the quantitative synthesis of feedback systems with uncertain non-linear plants. A. IOINOVICI.....	579
Order selection of a multivariate autoregressive model by a modification of the FPE criterion. J. NAKANO and S. TAGAMI.....	589
Discrete pulse orthogonal functions for the analysis, parameter estimation and optimal control of linear digital systems. I.-R. HORNG and S.-J. HO.....	597
Effective approach for the identification of boundary conditions in distributed-parameter systems. M.-H. PERNG.....	607
Two-port control system: a generalized predictive controller. G. STEPANOPOULOS and H.-P. HUANG.....	617
Control system performance robustness. R. D. JOHNSTON and G. W. BARTON.....	641
Stability of families of polynomials: geometric considerations in coefficient space. H. LIN, C. V. HOLLOT and A. C. BARTLETT.....	649
Trigonometric approximation of optimal periodic control problems for systems with cascade structure. K. STYCZEŃ.....	661
State-space approach to approximation by phase matching. PH. C. OPDENACKER and E. A. JONCKHEERE.....	671
Nuclear power plant cascaded state feedback control. E. E. ELMADBOULY.....	681
Sufficient condition for stable control of discrete-time systems with statistical process model. K. B. JANISZOWSKI.....	693
Optimal-observer design for linear dynamical systems with uncertain parameters. S.-D. WANG, T.-S. KUO and C.-F. HSU.....	701
Direct solution to the general reduced-order stochastic observation problem. E. SOROKA and U. SHAKED.....	713
Feedback stabilizability of non-linear stochastic systems with state-dependent noise. Z. Y. GAO and N. U. AHMED.....	729
Stability of a Hurwitz polynomial under coefficient perturbations: necessary and sufficient conditions. M. B. ARGOUN.....	739
Correspondence	
Comments on 'Stability test and stability conditions for delay differential systems'. M. BUSLOWICZ.....	745

NUMBER 3—MARCH

	PAGE
Robust stabilization of uncertain systems by periodic feedback. A. W. OLBROT	747
Multi-rate adaptive control with applications to lateral dynamics of aircraft. M. DE LA SEN, J. L. MARCO and C. LÓPEZ-ABADÍA	759
Parametrization of stabilizing controllers for multivariable servo systems with two degrees of freedom. S. HARA	779
Parametric state-feedback control with response insensitivity. T. J. OWENS and J. O'REILLY	791
Generalized invariant polynomials and the generalized companion form. S. TAN and J. VANDEWALLE	811
Synthesis of positive real multivariable feedback systems. M. G. SAFONOV, E. A. JONCKHEERE, M. VERMA and D. J. N. LIMEBEER	817
Adaptive control with discontinuous σ -factor and saturation for improved robustness. L. HSU and R. R. COSTA	843
ARMA canonical forms obtained from constructibility invariants. J. BOKOR and L. KEVICZKY	861
Robust tracking for a class of uncertain linear systems. S. JAYASURIYA	875
Design of three-by-three systems with severe interaction by classical techniques. J. VAN DE VEGTE	893
Frequency-domain properties of Kalman filters. M. J. GRIMBLE and K. J. ÅSTRÖM	907
Robust-controller design for systems with large parameter variations. O. I. KOSMIDOU and P. BERTRAND	927
Balanced singular values for LQG/LTR design. J. D. BIRDWELL and A. J. LAUB	939
New modelling technique for aperiodic-sampling linear systems. A. FUSTER and J. M. GUILLEN	951
Real-time self-tuning deconvolution filter and smoother. T. J. MOIR, T. G. VISHWANATH and D. R. CAMPBELL	969
Observing the state of a synchronous generator. Part 1: Theory. W. MIELCZARSKI	987
Observing the state of a synchronous generator. Part 2: Applications. W. MIELCZARSKI	1001
Synthesis of an internal model for non-linear output regulation. M. D. DI BENEDETTO	1023
Feedback solution of a class of optimal bilinear control problems. E. P. RYAN	1035
Solution of N -person Stackelberg games with nearly cooperating leaders. H. ABOU-KANDIL	1043
Arbitrary eigenvalue assignments for linear time-varying multivariable control systems. C. C. NGUYEN	1051
Eliminating limit cycles in interconnected systems via describing series. D. TEODORESCU	1059
Water waves: eigenvalue placement by linear feedback. R. M. REID	1067
Design of a minimal-order observer for singular systems. B. SHAFI and R. L. CARROLL	1075
Asymptotic behaviour of transfer function synthesis methods. A. H. WHITFIELD	1083
Stability of interval parameter matrices. Z.-C. SHI and W.-B. GAO	1093
Stochastic regulator with dynamic cost weighting. A. P. ROBERTS	1103
Correspondence	
Note on 'Time-optimal control strategy for saturating linear discrete systems'. O. ROSEN and R. LUUS	1113

NUMBER 4—APRIL

	PAGE
Observability and detectability of linear time-delay systems with unknown disturbances. K. M. PRZYLUSKI and A. SOSNOWSKI.....	1115
Robustness recovery of LQG-based multivariable control designs. T.-T. LEE and M.-S. CHEN.....	1131
Realization algorithm for determining generalized state-space representations. S. TAN and J. VANDEWALLE.....	1137
Decoupling theory of general multivariable analytic non-linear systems. C.-W. LI and Y.-K. FENG.....	1147
Stability of a time-optimal closed-loop system with parameter changes. W. HEJMO.....	1161
MFD models and time delays; some consequences for identification. P. H. M. JANSSEN.....	1179
Simple sliding mode control scheme applied to robot manipulators. E. BAILEY and A. ARAPOSTATHIS.....	1197
Design of a discrete Kalman filter for a tactile sensor in a feedback control system. J. Z. SASIADEK and P. J. WOJCIK.....	1211
Simple condition for composite-system properness. A. C. PUGH and A. KAFAI.....	1229
Stability problems with a stochastic regulator. A. P. ROBERTS.....	1237
Generalized polynomial optimization of stochastic feedback control. A. P. ROBERTS.....	1243
Minimal controllability for systems with delays. M. T. GALIZIA ANGELI.....	1255
Stable robust adaptive controller. W. R. CLUETT, S. L. SHAH and D. G. FISHER.....	1265
Remec test with vanishing leading array coefficients. A. A. K. HASAN and M. A. K. HASAN.....	1275
Approximate maximum-likelihood approach to ARMA spectral estimation. P. STOICA, B. FRIEDLANDER and T. SÖDERSTRÖM.....	1281
Recursive solutions to deadbeat observers for time-varying multivariable systems. N. MINAMIDE, M. OHNO and H. IMANAKA.....	1311
Optimal control of linear time-varying systems via piecewise-linear polynomial functions. C.-T. LIOU and Y.-S. CHOU.....	1323
Commutative controllers revisited: parallel computation, a new lease of life. D. J. CLOUD and B. KOUVARITAKIS.....	1335
Final-state sensitivity for time-optimal control problems. O. ROSEN, IMANUDIN and R. LUUS.....	1371
Linearity of the coefficients of the closed-loop characteristic polynomial. M. TAROKH.....	1383
Estimation technique for tracking rapid parameter changes. M. J. CHEN and J. P. NORTON.....	1387
Bounded-disturbance adaptive control with exponential and selective data weightings. Y. T. CHU and W.-T. WU.....	1399
Underlying algebraic framework of equivalence relations on linear systems. D. J. CULLEN.....	1415
Behaviour of high-gain feedback control under white-noise perturbations. V. DRĂGAN and A. HALANAY.....	1427
Integral-equation approach to system identification. A. H. WHITFIELD and N. MESSALI.....	1431
Relationships between several novel control schemes proposed for a class of non-linear stochastic systems. E. YAZ.....	1447
Parametric compensator design. P. HIPPE and J. O'REILLY.....	1455
Note on the relation between pole-zero location and input-output behaviour of SISO systems and its influence on controller design. P. HIPPE and H. STAHL.....	1469
Correspondence	
Comments on 'Transfer function synthesis using frequency response data'. H. STAHL.....	1479
Comments on 'The phenomenon of homeopathic instability in dynamical systems'. S. GARG and D. K. SCHMIDT.....	1483
Note on pencils of matrices. H. VÄLIAHO.....	1487
Comments on 'A multi-model adaptive predictor for stochastic processes with Markov switching parameters'. J. RAISCH.....	1489
Corrigenda.....	1491

NUMBER 5—MAY

	PAGE
Smallest destabilizing perturbations for linear systems. J. M. MARTIN and G. A. HEWER....	1495
Design of a single-loop digital controller by the method of inequalities. H. INOOKA and Y. IMAI.....	1505
Modified algorithm for MIMO self-tuning control. C. HAN, S. CHEN and P. D. ROBERTS....	1515
Robustness of uncertain systems in the absence of matching assumptions. Y. H. CHEN and G. LEITMANN.....	1527
Matrix assignment for 2-D systems with periodically variable coefficients by periodic feedback. T. KACZOREK	1543
Estimation of time delay and lag relationship of quadratic systems. M. M. GABR	1549
Reachability of a system described by the multidimensional Roesser model. J. E. KUREK...	1559
Analysis and optimal control of PWM systems. W.-L. CHEN and S.-G. WU	1565
State-space formulae for the factorization of all-pass matrix functions. M. GREEN and B. D. O. ANDERSON	1575
Linear function dead-beat observer with disturbance localization for linear periodic discrete-time systems. O. M. GRASSELLI and S. LONGHI	1603
New solution to the inverse regulator problem by the polynomial matrix method. K. SUGIMOTO and Y. YAMAMOTO.....	1627
Block decoupling and arbitrary pole assignment for a linear right-invertible system by dynamic compensation. H. HIKITA.....	1641
Special coordinate basis for multivariable linear systems—finite and infinite zero structure, squaring down and decoupling. P. SANNUTI and A. SABERI.....	1655
Output-feedback control with almost-disturbance-decoupling property—a singular perturbation approach. A. SABERI.....	1705
Use of modal functions for continuous-time system identification and state observer design. M. H. EL-SHAFFEY and E. V. BOHN.....	1723
Scalar-Lyapunov-function method for single- and multimachine problems in power systems. P. S. M. CHIN.....	1737
Generalization of optimal Hankel-norm and balanced model reduction by bilinear mapping. E. JONCKHEERE and R. LI.....	1751
Finite Volterra-series realizations and input-output approximations of non-linear discrete-time systems. S. MONACO and D. NORMAND-CYROT	1771
Globally convergent adaptive pole assignment for a class of non-minimum-phase stochastic systems. M. A. HERSH and M. B. ZARROP	1789
Linearization of discrete-time systems. H. G. LEE, A. ARAPOSTATHIS and S. I. MARCUS	1803
Singular perturbations with origin eigenvalues. M. DEMİREKLER and M. Y. ÜÇTUĞ	1823
Limits of propriety for linear-quadratic regulator problems. C. D. JOHNSON	1835
Open-loop Stackelberg strategies in a linear-quadratic differential game with time delay. T. ISHIDA and E. SHIMEMURA.....	1847
Robustness of extended-Kalman-type observers. S. M. JOSHI	1857

NUMBER 6—JUNE

	PAGE
Reduced-order estimation. Part 1: Filtering. K. M. NAGPAL, R. E. HELMICK and C. S. SIMS	1867
Reduced-order estimation. Part 2: Smoothing. R. E. HELMICK, K. M. NAGPAL and C. S. SIMS	1889
Model matching: optimal approximation approach. S.-S. WANG and B.-S. CHEN	1899
Generalization of discounted multistage decision making and control through fuzzy linguistic quantifiers: an attempt to introduce commonsense knowledge. J. KACPRZYK and C. IWAŃSKI	1909
Stabilizing and deadbeat properties of receding-horizon controllers. H. SELBUZ and V. ELDEM	1931
Passivity and the design of sampled regulators for uncertain systems. S. MOSSAHEB, R. G. CAMERON and F. LI	1941
Polynomial optimization of stochastic feedback control for unstable plants. A. P. ROBERTS	1953
Optimal estimators for distributed-parameter systems with time-averaged pointwise measurements. S. OMATU and J. H. SEINFELD	1963
Discrete pulse orthogonal functions for the analysis, parameter estimation and optimal control of linear time-varying digital systems. I.-R. HORNG and S.-J. HO	1975
Pole assignment using dynamic output feedback compensators. C.-L. CHEN and Y.-Y. HSU	1985
Exact pole assignment by output feedback. Part 1. L. R. FLETCHER and J. F. MAGNI	1995
Exact pole assignment by output feedback. Part 2. L. R. FLETCHER	2009
Exact pole assignment by output feedback. Part 3. J. F. MAGNI	2021
Control of non-linear stochastic sampled-data systems with non-quadratic criteria by equivalent LQ modelling. J. B. FARISON and M. S. ELHAZZOURI	2035
Identification of ARX models with markovian parameters. M. MILLNERT	2045
Adaptive controller for multivariable delayed systems. C. A. TSILIGIANNIS and S. A. SVORONOS	2059
Design of optimal strongly stable digital control systems and application to output feedback control of mechanical systems. T. MITA, B. C. PANG and K. Z. LIU	2071
Optimal instrumental variable multistep algorithms for estimation of the AR parameters of an ARMA process. P. STOICA, B. FRIEDLANDER and T. SÖDERSTRÖM	2083
Comparative study of non-linear state-observation techniques. B. L. WALCOTT, M. J. CORLESS and S. H. ŽAK	2109
Hyperstability of control evolution processes in Hilbert spaces. M. MEGAN	2133
Optimal design of non-minimum-phase control systems with large plant uncertainty. T.-P. TSAI and T.-S. WANG	2147
Guaranteed cost control of tracking problems with large plant uncertainty. C. T. LIOU and C. T. YANG	2161
Design of pole placing controllers for stable and unstable systems with pure time delay. H. STAHL and P. HIPPE	2173
Adaptive control via consistent estimation for deterministic systems. H.-F. CHEN and L. GUO	2183
Hybrid approach for the design of robust control systems. V. MANOUSIOUTHAKIS and Y. ARKUN	2203
α -Stability and robustness of large-scale interconnected systems. H. BOURLÈS	2221
Correspondence	
α -Stability of systems governed by a functional differential equation—extension of results concerning linear delay systems. H. BOURLÈS	2233
Subject Index	2235
